Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine OF KNOWN COMPOSITION, a full list of all its ingredients being printed, *in plain English*, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol *and that too in large quantities*. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely *free* if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed *in plain English* on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are *free* for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
Two sizes—50 cents and $1.00.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A Lonthouse Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Shallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

A RICH CORPORATION.

Rev. Dr. Morgan Dix has issued a statement concerning the income of the Corporation of Trinity Church, New York, which places the amount received from all sources, excepting collection in the churches, at $775,000 a year. It has been reported for many years that Trinity's income amounts into the millions and the corporation was said to be the largest single owner of real estate in New York.

No facts are given out as to the property held by Trinity, but the statement sets forth that there are only three saloons on the estate, one in a high-class restaurant and two on lots where long leases are said to put the control of the property out of the corporation's management.

Hermann H. Cammann, comptroller of the Trinity Corporation, says it would be difficult to give the real amount of the church's holdings at this time. The property first consisted of the Queen's Farm and the Queen's Garden, which were granted by Queen Anne in 1705. Much of this, he says, has been given to other churches and sold to individuals.

Dr. Dix says Trinity keeps up its eight chapels, pays clergymen, musicians, keeps up schools and parish charities, etc., and that $127,000 was paid last year to the city in taxes and water rates and $135,000 was paid for insurance premiums and repair on property other than that of churches.

The corporation has outstanding loans of $865,000 to other churches, on which it does not draw interest.

Dr. Dix's statement appeared in the annual report of Trinity parish, just made public, and he says it is given to contradict reports of the vast income of the corporation.

"No gambling or other objectionable houses exist on any of the corporation's property," the statement says.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It's nice even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

Attempted Suicide of a Merchant.

Benedict Gimbel, the wealthy Philadelphia merchant, who was arrested in New York Thursday on the double charge of exerting improper influence over Ivor Clark, a 16-year-old boy, and attempted bribery of the county detectives who made the arrest, was in St. Mary's Hospital, Hoboken, N. J., last night unconscious from wounds believed to have been self-inflicted. The doctors say he may recover.

Bleeding from gashes on his throat and severed arteries in both wrists, Gimbel was found at 7 o'clock last night in a room which had been engaged the night before at the Palace Hotel, in Hoboken. He was unconscious from loss of blood when he was removed to the hospital, where an examination of his effects made certain his identity.

Late Thursday night Gimbel was released from the Tombs under $6,000 bonds. It appears that immediately following his release Gimbel crossed on a ferry to Hoboken, and went to the Palace Hotel, registering there as Wilson Heldge of Trenton, N. J. He is supposed to have broken a glass pitcher and cut his throat with one of the pieces.

A Criminal Attack

on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Holiday Proclaimed.

Governor Swanson yesterday issued the following proclamation regarding the opening of the Jamestown Exposition, in which he directs the closing of all State offices and the general observance of the day as a holiday.

"Whereas the Jamestown Exposition which is designed to celebrate the beginning of the Commonwealth of Virginia and of the United States of America, will open on April 26, 1907, and will be attended by the President of the United States, Governors of many States and other distinguished guests and visitors, it seems proper that this event should be fittingly observed.

"Therefore I, Claude A. Swanson, Governor of Virginia, in order to enable the State officials to attend, do direct that all the State offices close that day, and further request that the people of the State as far as possible attend the opening exercises in order to show their interest in the success and laudable purposes of this Exposition.

"Given under my hand and under the lesser seal of the Commonwealth this 19th day of April, in the year of our Lord one thousand nine hundred and seven, and in the one hundred and thirty-second year of the Commonwealth.

"CLAUDE A. SWANSON.

"By the Governor.

"Secretary of the Commonwealth."

Shot Wife and Mother-in-law

The seventeen-year-old wife of William H. Klehm, whom he married five months ago, is lying at Johns Hopkins Hospital in Baltimore in a critical condition from a bullet wound in her breast, fired by her husband. Her mother, Mrs. Sadie Young, was also shot by Klehm and slightly wounded. The pair had been residing with the husband's father, Henry Klehm, until a few days ago. They quarreled over money matters and the girl wife left her husband and returned to her mother's house. Klehm went there after her yesterday. She was out with a girl friend. When she returned he sought a reconciliation. She refused. Her mother and her friend were present. Then he asked her to step out in the yard, as he had something to say in private, the wife reluctantly did so. Her husband again asked her to return to him, but she declined. He then fired twice. As the wife fell unconscious, her mother rushed out and tried to wrest the revolver from the infuriated man, but he fired again, and the ball skinned her forehead. Klehm was arrested later.

Centenarians to Marry.

Announcement was made yesterday that John B. Bundren, who on April 1 was 101 years old, will be united in marriage to Miss Rose McGuire on her one hundred birthday—August 26, 1907—on Mr. Bundren's estate, near Tatesville, Tenn.

Bundren and Miss McGuire were sweethearts in Tennessee in their youth, but neither has been married. Miss McGuire's parents would not let her marry Bundren in youth and took her to England to live. Bundren went to California and acquired considerable wealth. He returned to Tennessee and bought his birthplace, near Tatesville.

He decided to hold a reunion of old friends on his estate this year, and sent out numerous invitations, including his old sweetheart. Correspondence followed, and he renewed his offer of marriage and was accepted. The date for the wedding and the reunion of friends was then set for August 26, so as to combine the bride's hundredth birthday anniversary and her entry into matrimony.

Bundren has long white hair and a flowing white beard. He does not smoke or drink. In June he will go to Preston, Lancashire, England, to escort his intended bride to his Tennessee estate for the wedding.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, APRIL 20, 1907.

BY THE sudden death of ex-Mayor George L. Simpson the lifeless body of another prominent, popular and representative citizen of Alexandria, (the second this week) lies at his late home surrounded by relatives and friends who are mingling their tears with the members of a household who left the breakfast table this morning, bright and pleasant as was the meteorological conditions, without the slightest premonition that when they again gathered around the family board there would be a vacant chair at the head of the table. Forty-eight hours previously Mr. Simpson had entered the home of a stricken family as a pallbearer for the late John T. Sweeney, one of his associates in the Board of Aldermen, unconscious of the fact that the bell in the City Hall which was then tolling solemnly was destined to play a similar part in his own obsequies ere another week elapsed. Mr. Simpson last Tuesday night delivered a short but beautiful eulogy over the late Mr. Sweeney at a time when the sands of his own life were nearly spent. The future is said to be veiled by a hand of mercy, and how thankful all should be that such is the case. In order to show how little warning Mr. Simpson had of the fact that his useful life was nearing its close, in a conversation with the writer a week ago today he said that should he find himself a year hence in the same good health he was then enjoying he would re-enter the race for the Mayoralty. But, leaving this vein of thought, the sad proclamation—"It is appointed unto men once to die"—has been before the human race since man was placed upon earth. The destroyer is on the track of all, and the pursuer is surely gaining on the pursued. Those who were intimate with Mr. Simpson knew him to be a man of natural ability, an interesting conversationist, and one who had acquired considerable knowledge during his life. He had been a close reader and was possessed of originality of thought. He was quick in application, and his stock of miscellaneous information was vast. While it could not be said of him that "he had been to a feast of languages and stolen all the scraps," it could be said that he had been a regular attendant at collations where history, biography, &c., had been served and always came away with an abundance of fragments. His study of men had been close and his observations always savored of the practical. His death has doubtless caused as much sincere sorrow as that of any public man of this city who has preceded him into the other world, and those to whom he was near and dear have the earnest sympathy of every one in the community.

OLD MOTHER EARTH is ill with the agne. This has been manifested in the numerous severe and minor earthquakes and seismic disturbances reported from all parts of the world during the last few weeks. Following the "chills" which have shaken and cracked the earth's crust have been hurricanes and tornadoes which have added their share to the general damage. Scientists, whose attention has been directed to the subject, by the rapid succession of earthquakes in Mexico, Spain, eastern South America, and even in Charleston, explain that the earth is passing through a period of unusual instability. Whether further "brain storms" of the earth threaten danger to the more thickly populated portions of the world is a subject on which the seismologists differ widely. One set of scientists believes a universal disaster is imminent, while another group fears no such calamity, although agreeing that other seismic disturbances are possible. The seriousness of recent convulsions of nature are attracting world-wide attention among thinking people, their frequency naturally causing apprehension. Apart from the havoc and loss of life by earthquake and volcanic activities during the past few years, famine and pestilence have been and are still stalking abroad. Thousands of human beings, we are told, have recently died from plague in India. Famine is getting in in its deadly work. Twenty million people in the southeastern provinces of Russia are facing starvation while women are prostituting themselves to obtain food. Three millions of persons are actually starving in China and 10,000,000 more are on the verge of starvation, while 5,000 are dying daily from destitution. Parents are exchanging their children to be eaten; women and children are eating the bark and roots of trees and the green scum of vegetation from ponds. In Roumania fifty thousand Jews are destitute and will die of starvation unless help is given. We are told that famine, pestilence, earthquake and distress of nations will be preludes to the end of the present order of things, and the query, Is the world approaching some marked transition? is being propounded by some.

MAIDENS withering on the stalk in Danville, Ill., are urging the City Council of that place to enact an ordinance for the taxation of single men. In a counter petition the bachelors ask an ordinance providing a fine of $50 for every unmarried woman who rejects a proposal of marriage. They also ask that the Council formulate some plan by which the unmarried women will be forced to meet the bachelors and give them an opportunity of pressing their suits. Such compulsory marriages, it is feared, will fill the Illinois courts with divorce suits.

BUTTER COLORING, branded "harmless," has caused the death of two children at Lake View, Iowa. The two year- old baby of Kent Sterling, of that place, expired after frightful agony of ten hours, having taken a little of the coloring from a bottle near where the mother was churning. Near Miller, S. D., the three-year-old child of Jacob Weise drank a tablespoonful and died in a short time. Now that there are pure food laws on the statute books they should be rigidly enforced.

IT IS unofficially announced that hereafter all federal appointees in New York will be Governor Hughes men. This, it is believed marks the beginning of the end of the presidential boom started by Mr. Roosevelt for Secretary Taft.

From Washington.

(Correspondence of the Alexandria Gazette.)

Washington, April 20.

Secretary Loeb, acting upon instructions from the President, has requested the newspaper correspondents of the capital to abstain from chronicling the private affairs of the Roosevelt family, and in pursuance of this wish the secretary has asked the newspaper men to cease their visits to the "Big House" at night. When the office building was constructed in the western end of the White House lot about three years ago, all the business of the executive was moved out of the White House building proper. The state parlors and dining-room were the only apartments of a semi-public character to be left in the historic mansion, and these were used and are still used by the public at certain times. The President, his secretary, the executive clerks, telegraphers and all the other attaches of the establishment except the doorkeepers, ushers and house servants, were removed to the new offices and the White House was practically turned over to the President's family. Even this arrangement did not give President and Mrs. Roosevelt the privacy they believed they should have been allowed to enjoy. Their little social gatherings, their incomings and outgoings, the diversions of the children, even the antics of the cats and dogs about the house were seized upon by certain newspapers and exploited as though they were subjects of international importance. Mrs. Roosevelt especially resented those intrusions, and finally when last week the papers printed with great detail the facts about a purely social family party, she requested that some action be taken to limit the publicity to which her family was subjected. In making the request of the newspapers to let the "Big House" alone, Secretary Loeb explained that when visitors of importance called at the White House to see the President after office hours he, the secretary, would give them full details. He added that there would be no limitation placed upon the representatives of the press at the office building and every facility would be given the newspaper men in the future, as has been given in the past, to shed the full light of publicity upon the President's official work.

At today's session of the American Society of Internal Law John W. Foster, Secretary of State under Harrison and now legal representative of China in the United States, said he thought it was entirely feasible for the forthcoming peace congress at the Hague to agree upon a treaty applicable to all nations for compulsory arbitration in certain classes of cases. He felt that the provision as to mediation might be amended so as to make it the duty of friendly neutral nations to intervene without request when war was threatened, and that the disputing powers might be required before proceeding to hostilities to submit the questions at issue to a commission on inquiry. He also advocated the creating of a commission to codify the accepted principle of international law. Today's subject was the "Second Peace Conference at the Hague." Judge U. M. Rose, of Arkansas, president of the American Bar Association, and delegate to the conference, Representative Bartholdt of Missouri, president of the American group of the Interparliamentary Union, and John Bassett Moore, former Assistant Secretary of State and now professor of international law at the Columbian University, discussed the subject in a letter read before the society.

Some organized labor wants to have President Roosevelt expelled from its ranks for his recent criticism of Moyer and Haywood, the western federation miners, now under indictment in Idaho for blowing former Governor Steunenberg to pieces with dynamite. In the agitation over the Harriman letter and its sensational results, the fact has been lost sight of that the President is a member of various labor unions, either in active or honorary capacity. He belongs to the locomotive engineers and the stone masons. He has been called upon through resolution by some to explain his unfriendly course. The President has declined to notice the matter. It is now understood that a resolution of expulsion will be introduced in the unions of which President Roosevelt is a member. He will then be called upon to show cause why he shall not be expelled as an "unworthy member." It is thought this will force some public expression from the President.

The Panama Canal will be completed on or before January 1st, 1915. John F. Stevens, who has just retired from the position of chief engineer and chairman of the Isthmian Canal Commission made this prediction today after he held a short conference with the President. Mr. Stevens said he had not yet made any definite business connections, but added that he was "going to take a rest."

Three Americans are now under sentence to be shot in Mexico on the charge of having poisoned two other Americans for the purpose of profiting through the collection of their insurance policies. Only the exercise of the executive clemency of President Diaz can now save them from their fate.

About three o'clock this morning fire was discovered on the second floor of the Vendome Hotel, Third street and Pennsylvania avenue. Shortly before that time a guest was seen leaving the hotel and it is supposed that he dropped a lighted cigar. The damage was $700.

All of the American delegates to the forthcoming peace conference at The Hague, with the exception of Judge U. M. Rose, of Arkansas, had a conference today with Secretary Root for the purpose of receiving their instructions. The United States will support at The Hague the British proposition for a limitation of expenditures on armaments and will also urge the adoption of the Drago doctrine for a limitation of the cases in which force may be used for the collection of contractual debts.

In reports to the War Department Col. Geo. W. Goethals, the U. S. army engineer who is now in charge of the Panama canal, it is said, makes serious reflections upon the work of the canal done under the late Chief Engineer, John F. Stevens. He charges that the reports of the large excavations made by Mr. Stevens during the last three months are not in accordance with the facts and that much of the dirt that was excavated was dumped in places from which it will have to be removed later.

While there is much conjecture in official circles and among foreign diplomats, particularly the naval attaches, who would like to make authentic reports to their home governments, as to the details of the plans and specifications of the two new sea monsters, the 20,000-ton battleships authorized by the last session of Congress and just approved by Secretary Metcalf, it is learned on authority that the plans for the two ships that are calculated to be even more formidable than the British Dreadnought, and which are to be sisters, differ but slightly from the plans for the first ship which were submitted to Congress last fall. The surprising fact developed today that the confidential plans of the 2 great sister warships, which Congress provided should be submitted to it before their construction was authorized, were never inspected by Congress. The envelope containing the plan was returned to the Navy Department with seals unbroken.

The President's policy toward New York has set the politicians aflame. His determination to uphold Gov. Hughes by using all the federal patronage in the State to that end, may temporarily transfer the center of the presidential fight from the Buckeye to the Empire State.

General orders were issued by the War Department this afternoon relieving Brig. Gen. Funston at St. Louis from command of the southwestern division and placing him in command of the department of California at San Francisco.

At the close of the republican banquet at Kansas City, Mo., Thursday night, Rev. James C. Schindelle, pastor of the First Lutheran Church, included in the benediction these words: "May God, in his providence, will that the banner to be lifted aloft in the next republican national convention to be borne to triumph and victory shall bear the motto of the square deal and William H. Taft for the presidency." The words were cheered by the banqueters.

The victim of hysteria, said to have been induced by religion, Miss Mary E. Tomlinson, sister of Irving C. Tomlinson, first reader of the Christian Science Church, Concord, N. H., and close confidant of Mrs. Eddy, threw herself from the window of her apartments on the fourth floor of the Parker House in Boston yesterday and died two hours later. Since the suit was brought by Mrs. Eddy's relatives against the head of the Christian Science Church and her trustees, of whom Tomlinson is one, Miss Tomlinson had acted strangely. She had been subject to hallucinations on the subject of religion for sometime previous, but the suit seemed to intensify them.

After having received several demands by mail for $2,000 and a warning that he would be killed unless he paid that amount to the unknown sender of the letters, Salvatore Gemovese, an Italian banker, of New York yesterday received by express the parts of an infernal machine. He took it to the bureau of combustibles, where it was opened and found to contain several fulminating caps revolver, cartridge and other materials for making an explosive machine, but all disconnected and harmless. In the box was a rude drawing of two men in the act of killing a third. Mr. Gemovese regards the affair as a warning of what he may expect if he does not pay over the amount demanded.

Arrest of "Holy" Men.

Deputy Sheriffs conducted to jail in Raleigh, N. C., yesterday George Morgan, twenty-eight years old, who, since last Monday, had been wandering in the woods fifteen miles north of Raleigh. He went to Richmond last week, became suddenly insane under the impression he was a "holy man," and was arrested. His brother, Lonnie, went after him. As soon as the latter arrived he, too, became insane, and was also arrested. An officer was sent from Raleigh to bring both men back, but George escaped from the train when near Raleigh. When found he was in the woods, and was almost starved. Lonnie also claims to be a "holy man." George says he made his escape because he did not want to go to jail. The men are only held in jail until room can be found for them in the hospital for the insane.

GENTLE SPRING.

It is within the range of possibility that a connection may after a while be drawn between what some people call "Spring fever" (meaning thereby that sensation of nothing wrong in particular, but that all is not just right) and that very prevalent malady, dyspepsia. At any rate, physicians who have used a prescription composed of ½ oz. Fluid Extract of Buchu, 1 oz. Bulso Mixture, ½ oz. Fluid Extract Gentian Compound and 15 ozs. water in treating dyspepsia have found that the medicine is not only wonderfully efficacious in dyspepsia cases, but that it is also an admirable "spring tonic," and exactly what many people need at this season of the year. Most successful results are said to follow the use of the preparation in doses of a tablespoonful administered three times a day. The prescription, which any good pharmacist can put up, contains nothing in the least degree harmless and would seem to be well worth a trial.

Today's Telegraphic News

Preparing to Contest Will

London, April 19.—The greatest interest is manifested here in the report from New York, that relatives of the late James Henry Smith, the millionaire, who died in Japan, are preparing to fight for a part of his estate. Inasmuch as it is generally believed here that Lady Mary Cooper, Smith's titled sister, is the largest beneficiary, any contest over the will is sure to attract as much attention here in the United States. The report here is that the Duchess of Manchester, daughter of Eugene Zimmerman, of Cincinnati, will also come in for a considerable portion of Smith's estate. Miss Effie Evans, whose sister married Eugene Zimmerman, is authority for the declaration that the Duchess is one of the legatees.

The arrival of a posthumous heir, or heiress, of Smith, may thwart the attempt of his mother, sisters and brothers to dispute with his widow the disposition of the $50,000,000 or $75,000,000 which he left. It is asserted by persons in New York who are in Mrs. Smith's confidence that such a complication is to be expected.

If Smith died childless and without expectation of lawful issue from his marriage with Mrs. Rhinelander Stewart, whom he married after her divorce, there would be a likelihood that his relatives could contest, with some chance of success, a will leaving all his property to his bride-widow. But the advent of a son or daughter would change the situation vitally. No details as to Smith's will have yet been made public. It has been generally supposed that he left a suitable provision for his blood relatives, but that the bulk of the estate is left to his widow.

Whipped by Women.

London, Ohio, April 20—Sixteen irate women of Rosaca, Madison county, beat George H. Ward, a prosperous farmer, until, battered and bruised, he was removed to his home in a serious condition For a long time Ward made himself obnoxious to the community through cruelties charged by his wife. The authorities finally interferred and removed her to the home of a neighbor, W. S. Yerrian, where she died of consumption Tuesday. Ward, according to stories from neighbors, refused to allow religious services to be held over the body. He followed her to the grave in a solitary rig. The women of the community armed themselves with whips, awaited Ward's return, dragged him from the buggy, and beat him until the whips were splintered. In a petition for divorce, filed some weeks before her death, Mrs. Ward charged that her husband, while she was suffering from consumption, drove her from her bed to feed the stock.

Kidnapped Boy Found.

Gloversville, N. Y. April 20.—Carefully guarded in the private office of Police Captain Colson, the four-year-old boy believed to be little Horace Marvin, the kidnapped son of Dr. Marvin, of Kitts Hammock, Delaware, is being held pending the arrival of Miles Standish, Dr. Marvin's brother-in-law, who is expected to positively identify him as the missing child. Captain Colson is positive the boy is Horace Marvin. He said today: "I am positive of my identification. This boy not only answers the discription of the Marvin child in every particular, but he has told me things that convince me I am right." Mr. and Mrs. Alexander H. Allen, as the man and woman who had the boy described themselves, are under police guard. Allen is locked up and Mrs. Allen is detained at her hotel.

Destructive Fire.

Jersey City, N. J., April 20.—Fire destroyed almost an entire city block on Warren street, between Railroad Avenue and Steuben streets, Jersey City, this forenoon. William Van Horn, driver of Assistant Chief Engineer Corell's wagon, while helping to carry a line of hose up to the roof of one of the burning houses, fell two stories and sustained a fractured skull. He was also internally injured. The total damage is estimated at $30,000.

Denies Plot.

St. Paul, Minn., April 20.—Emma Goldman in lecturing here denied the existence of an anarchist plot of Pennsylvania "reds" to kill the President: "Roosevelt is not worth the time, much less the trouble, an anarchist would have to take to snap the thread of his insignificant existence. I do not believe there is any such plot save in the minds of those who scheme with Roosevelt to keep him constantly in the lime light. He craves publicity and notoriety, is always looking for the center of the stage, so an anarchistic plot to which there is no foundation, will do as well as anything else."

Fire Checked.

Manila, April 20.—After destroying a thousand houses in the native portion of the city the fire at Ilollo has been checked. The business part of the town was untouched. Nearly twenty thousand persons have been rendered homeless as a result of the fire, and the loss is estimated at $150,000 There is much suffering among the homeless, but the provincial government is rapidly relieving the distress. Many natives are camping in open spaces. The loss is estimated at $200,000 gold. No casualties have been reported. Many refugees are sheltered in school buildings.

Probable Suicide.

Camden, N. J., April 20.—Coroner Fithian viewed the body of Roxanna, Turner who was found dead at her home, 824 Walnut street, in this city, this morning. The finding of two empty laudanum bottles indicated suicide, but testimony of neighbors relative to quarreling between Willism Patterson, who lived in the same house, and the woman resulted in the arrest of Patterson. No marks of violence were found on the body and the coroner stated that in his opinion, the woman committed suicide. He will make a more through examination later.

Hard Times in Kansas.

The old days of grasshoppers and drouth are almost forgotten in the prosperous Kansas of today; although a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. To the west was the lard house of Swift & Co., and for a time it was feared that it would be impossible to save the structure. Several persons were injured during the fire.

Bardy reported to the Harlem police the fact that he had been held up by the women and relieved of his $200 watch and cash. In return the women handed him a tin watch remarking, "It's a shame to leave him without a ticker."

Cruelty to Animals.

To the Editor of the Alexandria Gazette.

Among the various benevolent organizations found in our chief cities those for the prevention of cruelty to animals find sympathy with most people of kind hearts. The animals in whose interests they exist are of the brute creation, but I never travel by the electric trains on the Washington, Alexandria and Mt. Vernon Railway, especially in rush hours, without wishing we had one here for the protection of the nerves of those of our own species.

No sooner does the train leave either terminus than the clatter of the ticket register over the front door begins its inhuman racket, which for the first five or ten minutes makes the life of any traveler who has nerves a burden. Speaking for that class and as the mouthpiece of many, I protest against such treatment. The use of this instrument of torture is understood to be in aid of the faithful collection of fares and, for aught I know, may be efficient to this end, but I insist that the company has no right in the conduct of their business to sacrifice the comfort of the public. Some other method surely of attaining the same end may be used, or at least a noise less excruciating may be employed in its behalf.

Your correspondent travels often by the electric trains and has for years endured the chastisement in question and delayed to enter this protest, but he thinks now that forbearance has ceased to be a virtue and is moved to speak out.

A Mint at Jamestown.

The exhibit of the Treasury Department will be the most complete that branch of the government service has ever attempted. In addition to showing specimens of all money, portraits of the various treasurers, etc., there will be in full operation a mint which will turn out not only paper money, but coins. The latter will be the souvenir coins which will be cut from sheets of bronze and brass. On one side will be a picture of Capt. John Smith's ship, and on the other the official seal of the Exposition Company. One of the exhibits will be a hand printing press that was used in the Philadelphia mint in 1798. Alongside of it will stand a press of the present type, showing the vast stride that has been in the printing of money.

The May Metropolitan, which has been received from its publishers in New York, is conspicuous for the vital interest of its articles, the entertaining quality of its fiction and for its attractive appearance. "The Era of Inter-Continental Railway" is the leading article, and "Fire Prevention" is of interest and importance. This month's instalment of "The Mexican War" tells of the annexation of Texas, the declaration of war with Mexico, &c. "The Gardeners" is a charming dissertation on spring and flowers and "The Loaded End of the Big Stick" is a most stirring article This number is one of the best illustrated of this always well-illustrated magazine and the fiction is unusually good.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Must Run into Strasburg.

As a result of an order recently issued by the Virginia State corporation commission, the Baltimore and Ohio Railroad will run all its trains into Strasburg and not simply to Strasburg Junction, as has been its custom for the past eleven years, or since the Southern Railway took possession of the fifty miles of trackage from Strasburg to Harrisonburg. The company has also been ordered to start all trains for Harpers Ferry from within the corporate limits of Strasburg and not from Strasburg Junction. As as been stated the Baltimore and Ohio andSouthern have been ordered to build ajoint passenger depot at Strasburg Junction by the Virginia commission, and the plans have been prepared.

The Southern Appeals.

The Court of Appeals yesterday granted a writ of error and supersedeas in the case of the Commonwealth against the Southern Railway, which is an appeal from an order of the State Corporation Commission in certain cases involving an alleged infraction of the demurrage and car-service rules. The railroad was charged with failure to furnish M. M. Outshall, of Rapidan Station, with certain cars, said to have been properly ordered by him, and also with refusal to pay or acknowledge liability for demurrage penalties. The commission imposed a fine of $50 for the violation of rule 1.

Death of George L. Simpson.

Ex-Mayor Stricken With Apoplexy, Dies Within a Few Minutes.

The serenity of the city was suddenly broken about ten o'clock this morning by the announcement of the sudden death of ex-Mayor George L. Simpson, one of the most prominent and popular gentlemen of Alexandria. The deceased proceeded to his store this morning apparently in his normal health, and after devoting his attention for a short time to certain business affairs, went to his desk on the upper floor where he generally read the morning papers or entertained friends. Shortly after he had seated himself an attache of the store saw him throw his head back and gasp, and realizing that he was ill, asked him what he could do for him. Mr Simpson, however, was virtually in the article of death at that time, and before Dr. Gorman, who was summoned, arrived he had expired. His death was due to apoplexy. Mr. Simpson leaves a widow and two sons.

A few minutes after his death telephone messages announcing the sad fact were being sent to all sections of this city, while equally as many more were being received from anxious friends and acquaintances inquiring if the rumors were correct, or for the details in connection with his death.

Universal expressions of sorrow came from many sincere lips when the news was confirmed, and a large concourse of people gathered in front of the store of the deceased on north Royal street. The remains were later removed to the residence, southwest corner of Cameron and Columbus streets.

The Mayor has called a meeting of the City Council tonight at 8 o'clock to take suitable action regarding the death of Mr. Simpson.

George L. Simpson was born in this city 64 years ago. He was a son of the late Henry L. Simpson, who was himself a representative man for many years. In early life he became associated with his father in the boot and shoe business at the old stand on the west side of Royal street, near King, which has been an Alexandria landmark for over half a century. The deceased had but entered manhood when he was selected as one of the members of the Common Council from the Second ward, and a few years later represented Alexandria city in the House of Delegates of Virginia. After an intermission in his political life of about twenty years, he again entered the arena and was chosen Mayor of the city in 1897, and succeeded himself until 1904, when he failed of re-election by but few votes. Upon the resignation of Mr S. P. Fisher as Alderman from the Third ward Mr. Simpson was chosen as his successor. As had ever been his course while in political life, he devoted his undivided attention to the duties incumbent upon him. Like Epaminondas of old, whom he occasionally quoted, he faithfully performed his duties whether his position was exalted or humble, and he has died in the public service. Mr. Simpson was a genial companion, his nature at times savoring of the jocular, and he made many friends, to whom he was always true, all of whom were shocked and grieved to hear of his sudden death. Mr. Simpson was a member of the Methodist Episcopal Church South. The deceased had been for many years a member of Oriental Lodge, Knights of Pythias, of this city, and he had passed through all the chairs of the Grand Lodge.

The death of Mr. Simpson brings to mind the sad fact that death has been unusually busy in the Board of Aldermen of the city of Alexandria within the past two months. N. P. T. Burke was stricken with apoplexy and died February 12. He was followed by President John T. Sweeney last Tuesday, and four days later Mr. Simpson has been called upon to pay the debt of nature. An hour and a half previous to his death Mr. Geo. W. Schafer, the popular Messenger of the Board of Aldermen, expired at the Alexandria Hospital after a short illness.

Fishing in the Potomac.

In a recent communication to State's Attorney Robert B. Peter, of Rockville, Md., Attorney General Bryan gives it as his opinion that the fish in the Potomac river are protected from April 15 to June 1 of each year by the law of 1896, and that the law of 1904 does not apply. The law of 1896, he says, is based on an agreement between Maryland and Virginia, and that in order to alter it the compact must first be changed. The penalty provided for each violation is a fine of $200, or six months in jail.

No Clue to Wreckers.

The police have not succeeded in locating the person or persons who attempted to wreck a southbound express on the Washington, Alexandria and Mount Vernon Electric Railway in Washington Thursday night or obtained any clue which would lead to their detection. It is thought that that the motive for the act was revenge. Had the cars jumped the track they would have gone over a steep embankment and probably caused the death of many passengers.

His Dear Old Mother.

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent ppetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Minister Sent to Jail.

Rev. Hervey J. Seaman, of Charlottesville, a well-known minister, has been committed to jail by Justice Robert Watson, upon his failure to furnish bond in the sum of $500 to keep the peace. Rev. Mr. Seaman, who is pastor of several churches in adjoining counties, was arrested on the complaint of his wife that he assaulted her. Mrs. Seaman swore out the warrant in the belief that her husband would take her life, as, she said, he had frequently threatened. Her story culminated in the statement that her husband had spat in her face. Rev. Mr. Seaman's account of the domestic trouble leading to his arrest contained the statement that he had used only such means of correction in his family as he deemed necessary. Justice Watson, after hearing the evidence in the case, placed the husband under a $500 peace bond, which he was unable to give and he consequently went to jail. Mr. and Mrs. Seaman have lived in Charlottesville for a number of years. Mrs. Seaman was Miss Lucy Walters, daughter of the late William Walters, and niece of the late John L. Walters, one time treasurer of Charlottesville.

Argo Red Salmon is caught in Bering Sea among the icebergs. That is why the flesh is so firm, and the flavor so delicious.

A Debutante's Expenses.

How much does it cost a debutante to live in New York? This question was raised yesterday by a petition filed before Justice Bischoff in behalf of Miss Allets Nathalie Bailey, 19 years old. The petition asks that her income be increased from $18,500 to $18,000 a year.

When Miss Bailey is 21 years of age her income will be $36,700 a year. In the meantime she finds herself in much the same fix as Burnett Tiffany, who said he simply could not live in Gotham on less than $50,000 annually.

Six years ago the courts fixed Miss Bailey's income at its present figure, and in the presentation of the facts to the court it is said that she has now reached the age where she is expected to do as the Romans do, and to give return dinners and other forms of entertainment to those with whom she mingles in society.

Justice Bischoff, to whom the application was made, appointed Louis J. Phelps, her attorney, as a special guardian to take an inventory of the estate and make a report on the conditions of the young woman's method of living.

Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklin's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by E. S. Leadbeater & Sons, Druggists. 25c.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poison enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by E. S. Leadbeater & Sons, druggists.
